

Esters Garden

92 Bunday road – Open garden

Welcome to our garden and we hope you enjoy your stroll.

Anthony and I moved in to this place three years ago and a bit. We moved out from Northern suburb as our yard was far too small to grow tuberose and cutflowers and build a sustainable living garden.

This place was like a jungle when we moved in for the first year. It was full with lots of big trees, shrubs and vines. However, we have created a few designated theme gardens since we moved in, for an example bromeliads, fruit trees, frangipani, and the rest for simply relaxing and enjoying the constant changing colours of flowers and foliage as well as easy access for visitors and us.

Other than that, our vision is to build a retreat sanctuary with variety of edible fresh vegetable and medicinal herbs for others to learn how to utilise during their stay.

We both hope that you like and enjoy your visit today as well as the food tasting we have provided.

**Food tasting will be

1. Steam rice with boiled cassava leaves, snake beans, bean shoots and kenikir leaves (seasonal) topped with traditional savoury shredded coconut serve on banana leave.
2. Rosella drinks
3. Tamarind and turmeric drinks

Thank you and enjoy your stroll.

1. Entrance
2. Fruit Trees
3. Food & Beverage Point
4. White Garden
5. Bromeliad Garden
6. Water Dam & Big Buddha
7. Fruit Trees
