

Territory Exotics & Watergardens

Territory Exotics & Watergardens first started as a wholesale only indoor plant production nursery in 2002. The nursery has evolved in the years following and now specializes in Waterlilies, Lotus Plants, Cordylines, Bromeliads and other tropical plants. Its owners Tonia and husband Milan have now focused on creating a range of display gardens incorporating these plants, giving visitors inspiration to create their own tropical paradise. The nursery is open to the public on the first and third weekends of each month from 9am till 2pm. There will be a selection of plants available for sale throughout the weekend.

Things to look for

Indoor foliage house and Rainforest Wall
